

User Stories Document

Project: Buildapp

Sign Up/Log In & Onboarding:

As a design enthusiast, I want to connect with experts in interior, architectural, and landscape design.

- As a new user, I expect a guided tour of the app's features to understand its functionality better.
- As a new user, I desire to set up my initial preferences to personalize my experience and facilitate navigation.
- As a new user, I seek tailored recommendations based on my preferences to streamline my browsing experience.

Menu & Navigation & Dashboards:

- As a user, I aim to share information about my renovation project while ensuring the security of my private data.
- While browsing, I wish to save expert profiles, articles, blogs, and videos to access them conveniently later.
- As a user, I require advanced filtering options for sustainable products, articles, videos, and experts based on various parameters such as name, category, cost, and location.
- As a user, I want access to my conversation history with experts from my dashboard.

Communication with Experts:

- As a user, I prefer accessing information about an expert's work beforehand to assess their suitability for my needs.
- As a user, I expect the option to join a video meeting with an expert before scheduling an on-site visit.
- As a user, I need the flexibility to cancel or reschedule appointments with experts as needed.
